

## Sphaerocyclamide

0 bp | 2000 | 4000 | 6000 | 8000 | 10000

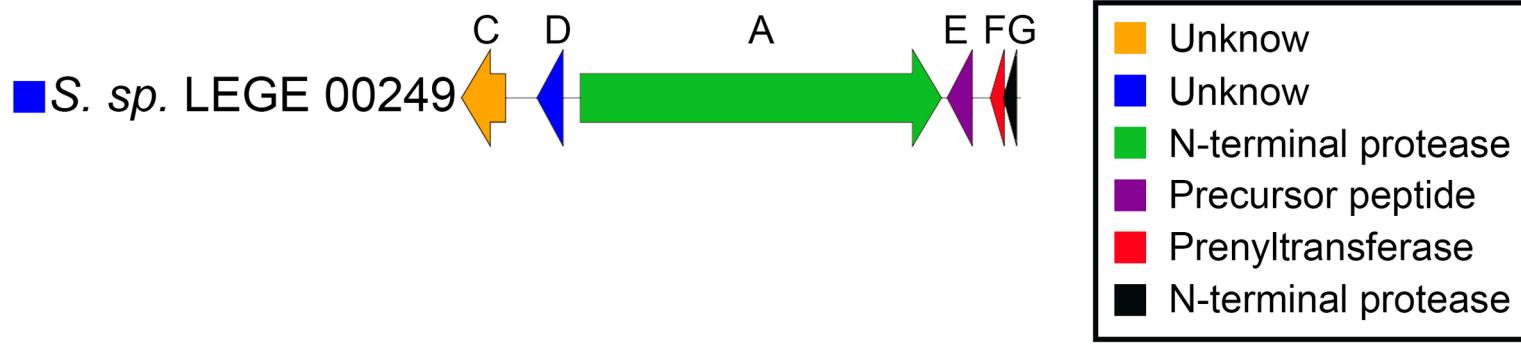

Figure S11. Cluster of Sphaerocyclamide (*sph*) genes in the *S. sp. LEGE 00249* strain. This figure shows the gene clusters associated with Sphaerocyclamide production in the *S. sp. LEGE 00249* strain, including the length of the gene clusters in base pairs (bp) and the function of each gene within these clusters.
